## S-PHYRE FLASH SHORT SLEEVE JERSEY

PRO-GRADE JERSEY FOR WHEN EVERY SECOND COUNTS.

### FEATURES

- Sleek aerodynamic fit tightly conforms to the upper-body to squeeze out drag-inducing wrinkles.
- Smooth, unstitched neckline boosts aerodynamics.
- Extremely lightweight front-facing fabric and smooth material on the back enhance aerodynamics and cooling performance.
- Sturdier fabric on the back keeps pockets from sagging.
- Extended sleeves made with a combination of woven and knitted materials hug arms for an incredible fit.
- Special flat-lying pocket construction secures valuables while keeping them easy to access.

### MATERIAL

- Main body: 75% Polyester, 25% Elastane; Back: 86% Polyester, 14% Elastane

## S-PHYRE FLASH BIB SHORTS

PRO-GRADE BIB SHORTS FOR WHEN EVERY SECOND COUNTS.

### FEATURES

- Sleek aerodynamic materials tightly hug the body to support high-speed riding and reduce drag.
- Woven compression materials on the thighs improve circulation and reduce fatigue on long rides.
- Highly breathable striped mesh back maintains excellent airflow to quickly vent body heat and dry sweat.
- Flat-lying bib straps sewn inside the waist prevent material from bunching in an aggressive riding position.
- Reflective elements on the back of both legs improve low-light visibility.
- IN FUGA Italian-made chamois with patented Free-Flow system provides breathable shock-absorbing comfort without bulkiness.

### MATERIAL

- Main body: 71% Polyamide, 29% Elastane; Mesh part: 92% Polyamide, 8% Elastane; Upper: 74% Polyamide, 26% Elastane; Part: 66% Polyamide, 34% Elastane

## FEATURES

### AERODYNAMIC

Aerodynamic shaping reduces air resistance to support more energy-efficient riding.

### BONDED SEAMS

Flat-finish, lightweight and durable seam construction.

### BRUSHED INSIDE

The soft touch of a brushed inner layer promotes warmth and comfort.

### CUSHION

Cushioning on top of the foot is engineered to reduce the impact from the shoes.

### EASY CENTER PULL OFF TAB

Pull off tab for easy removal.

### GEL PADDING

Gel foam delivers impact and vibration absorption.

### ONE-PIECE PALM DESIGN

One-piece palm creates a smooth, wrinkle-free fit that's as lightweight as possible.

### OPTIMAL PANEL CONSTRUCTION

SHIMANO employs sophisticated 3D modeling to shape sections of material for an optimal fit.

### PACKABLE

The built-in self-packing pouch lets you quickly store your jacket in a compact, easy-to-carry package.

### RECYCLED MATERIAL

Certified recycled materials used throughout or in parts of our product.

### REFLECTIVE DETAILS

Light-reflecting details improve the wearer's visibility in low-light settings, making for a safer ride.

### SILICONE GRIP

Non-slip silicone is used on palm and finger sections to ensure a secure grip and stable handling.

### SOFT SPONGE PADDING

Soft and light urethane foam cushioning material.

### SOFT WIPING FABRIC

Soft, absorbent terry cloth to mop your hard-toiling brow.

### TAPED SEAMS

Taped seams serve to improve durability and enhance protection from wind and rain.

### 3D ANATOMIC DESIGN

The entire glove has been designed to a 3D pattern that fits the natural contours of your hand.

### 3D PALM DESIGN

A specially configured thumb section is designed to minimize wrinkles when you grip your handlebars.

### 3-PANEL PALM DESIGN

Original design three-piece palm fits the hand more naturally for a snug yet comfortable fit that enhances bike control.

### TOUCHSCREEN COMPATIBLE

Conductive fabric on index and thumb works with touchscreen devices.

### VENTILATION

Mesh knitting enhances ventilation to keep you dry and comfortable.

### WATER-REPELLENT

Durable coating still repels water after numerous wash cycles.

### WATER RESISTANT

Water resistant materials are able to withstand light showers and moderate exposure to water.

### WINDPROOF

Designated windproof items significantly reduce the heat-sapping effects of wind.

## FIT TYPES

### ROAD COMPETITION

Designed without compromise to boost your performance. The race fit fits like a part of the body and less flutter, they deliver an aerodynamic advantage.

### MTB

More loose fitting design for maximum MTB riding comfort. The MTB fit is lightweight, airy, and supports the dynamic movement of mountain bikers.

### ROAD PERFORMANCE

For riders seeking active and performance riding. The performance fit is easy to move and less flutter by slim fit.

### ROAD SPORTS

Moderate fit and easy to move. The sports fit that is comfortable and less stressful with slim fit.
